JOURNAL OF THE SOCIETY FOR PSYCHICAL RESEARCH

OCTOBER 2022

## THE JOURNAL OF THE SOCIETY FOR PSYCHICAL RESEARCH

The Society for Psychical Research was founded in 1882 “to examine without prejudice or prepossession and in a scientific spirit those faculties of man, real or supposed, which appear to be inexplicable on any generally recognised hypothesis.” In keeping with most scientific bodies, the society holds no corporate views, and any opinions expressed in this journal or the society’s other publications are those of the authors alone.

## NOTES FOR AUTHORS

The Journal of the Society for Psychical Research (JSPR) provides a peer-reviewed forum for communication and critical debate for the community of scholars and interested parties involved and/or interested in the field of psychic, parapsychological or anomalous effects.

### TYPES OF PAPER

The journal publishes empirical research, research notes and short letters to the editor. All submissions need to be in English. Research based submissions to the JSPR for publication need to be *original* (i.e., not published or submitted for publication elsewhere), provide a *significant* contribution to the field, and be underpinned by a highly *rigorous* methodology.

*Empirical Research* (6,000 to 8,000 max)

The journal welcomes a range of empirical work including (though not restricted to): experimental research (quantitative and qualitative); field investigations; case collections; theoretical contributions; review articles; historical perspectives.

*Research Notes* (4,000 to 6,000 words max)

Research notes refer to short reports of interesting and important issues and/or relate to specific or current research carried out in the field.

*Letters to the Editor* (1,000 words max)

The journal welcomes letters to the editor that comment on or otherwise develop ideas introduced by the material published in the journal.

### MANUSCRIPT PREPARATION

As noted above the major criteria for the acceptance of a research article will be its originality, significance and rigour. Detailed guidance on the preparation of empirical research articles, research notes and letters to the editor can be found on the SPR website at: <https://www.spr.ac.uk/publicationsrecordingswebevents/journal-society-psychical-research>.

### SUBMISSION PROCESS

All submissions need to be in English and saved in Word format and then emailed as an attachment with a covering letter to: The Editor, Journal of the Society for Psychical Research. Email address: [journal@spr.ac.uk](mailto:journal@spr.ac.uk).

### COPYRIGHT

For all accepted submissions authors will retain copyright to their work and take responsibility for the views expressed. However, the SPR reserves the right to reproduce material published in the JSPR as part of another journal, and/or to make it available in electronic and/or print format. Once a submission has been accepted for publication in the JSPR it must NOT appear anywhere else (including an internet website) until the journal has been published. After publication in the JSPR authors may use the material as they wish but should make appropriate reference to its prior publication in the JSPR: for example, “This paper (material) first appeared in the Journal of the Society for Psychical Research, vol. ..., pp. ..., and is reproduced here with permission.”

*Permissions*

Corresponding authors are responsible for securing any/all written permission to reproduce any previously published or unpublished material for which copyright is currently held.
