

# Help us learn about experiences of voice hearing in the general population

## Are you:

- 18-65 years old?
- Have experience of hearing voices, spirits, psychic hearing or other clairaudient experiences (sounds beyond the reach of ordinary experience)?
- Have never been given a diagnosis of psychosis (including schizophrenia) or dissociative disorder

You may be eligible to participate in the Hearing voices: A comparison of experiences in the general population and dissociative disorder research project

**Participation involves one meeting with a trainee psychologist for a psychological interview and to complete an online questionnaire.**

You will be compensated £50 for participating.  
If applicable, travel costs and lunch will also be provided.
