This will be a stimulating cocktail of leading thinkers to explore emerging scientific insights that may fundamentally reshape how we understand reality, consciousness, and humanity's place within a rapidly changing world.

*Nick Cook, James Herson, and Siân Sutherland*, co-founders of EXO will be joined on stage by extraordinary experts for this interactive evening.

Topics explored, with a grounded, evidence-led lens, will include:

EXO exists to convene that important conversation: rigorously, responsibly, and without dogma. Our aim is not to offer easy answers, but to ask better questions—and to explore whether a more complete understanding of reality might help us move beyond the cycles of fear, fragmentation and short-term thinking that define the current moment.

- Consciousness and the science of mind
- Artificial intelligence and emergent intelligence
- Quantum insights into the nature of reality
- Psychedelic research and altered states

TOWARDS A NEW SCIENCE FOR HUMANITY
